

Wisconsin Livestock Identification Consortium

State Fair & County Fair Animal ID/DNA Program – RFID Tag Replacement Form

Dear Exhibitor,

WLIC is enclosing this letter/form in the case your Fair Animal loses/breaks the RFID Ear Tag you received with the ID/DNA Kit or from your County Fair. Please keep a copy of this letter along with your yellow copy of the State Fair & County Fair Animal ID/DNA Sample Documentation Form for proof of receipt if any identification questions arise.

If your Fair Animal loses/breaks its official RFID tag that you received in the ID/DNA envelope from WLIC for county or state fair, please fill out the attached form at the bottom of the letter to request a replacement ear tag. You will need to provide the lost tag ID number in order to get a replacement RFID Ear Tag. Enclose your payment for \$6 for each tag with form and mail to WLIC (address listed below).

If your Fair Animal loses its official RFID tag that you received from your County fair, contact your county fair office for a replacement if possible. You will need to provide the Fair Office with lost tag ID number in order to get a new RFID replacement tag, your county needs to advise WLIC of the replacement tag's 840 number and visual number to match the DNA envelope you returned to WLIC. The lost/broken tag number must be replaced with the replacement tag number in order to match your DNA hair samples for that animal (if the DNA hair samples were already mailed back to WLIC). Please make sure you replace the new ID tag to the correct animal that was DNA sampled. Keep copy for your records
 Have questions on retagging or tag placement? Please call **888.808.1910** or email helpdesk@wiid.org.

Return this portion of the RFID TAG REPLACEMENT REQUEST FORM: **Exhibitor County:** _____
